Grounded in our readings
TA's help students during class
make sure it is known interruption based
Teacher has little time to worry about these issues
status bar with converstation
professor has a status/ yes or no
data persistance - all data being stored
contact after class
timeline/keeps track of questions during the time
creates mailing list / problem areas
students/teachers/TA s have access to it
Social Factors - Collaboration is a skill that needs to be addressed
Social Norms change
Incoporate collaboration
lectures are good for covering large amounts of info
capturing what is taught in a way that will allow explore the topic of lecture
justification of chosen/every student justifys answers
capture and change incorrect justifications and show incorrect justifcations in red and correct one by
teacher
